

# a. Brownian Motion

$$dX_t = v(t, X_t) dt + \sigma d\mathbb{W}_t$$

Wiener process

● particle

example  
trajectory

# b. Particle Evolution *with external force $f$ and noise $g$*

$$dX_t = [f(t, X_t) + g(t)v(t, X_t)] dt + g(t)d\mathbb{W}_t$$
